|               | 5.  | Twenty-one twin-engine planes took off from the field on 7 August 1950. They flow mastward in wedge formations of seven almos. In the same day that one almos landed, coming from the emat. In addition to the twin-engine planes which were painted silver with a yellow rudder assembly, dark green cargo gliders were seen at the field. The gliders had an estimated capacity of 30 to 40 mem. (3) Infteen pyramidal tents with a capacity of 10 mem and some four-mast tents for about 40 mem were pitched on the southern edge of the field.   |
| 5X1           | 6.  | A twin-on ine place towed a cargo glider over fromt on 3 August 1950.  |
|               | 7.  | Twenty-five twin-en ine planes were soon at Hindersleben airfield on 30 July 1950. Paramidal texts were pitched beside the planes. Local residents said that the field was recently again put into operation.  |
|               | 8.  | Two planes, each towing a cargo glider, were seen over Enfurt about 7:30 a.m. on 7 lugust 1950. Formation flying of three squadrons of seven planes each was also observed. The squadrons were flying in the following formation:  |
|               |     |  |
